

# Have you been looking for an art program for your child that is both fun and educational?

The Kids ARTcademy provides students with a safe and fun environment in which they can express themselves through a variety of artistic creations.

Our goal is for each student to enjoy the process of making art, as well as, realizing the end result. We strive to fulfill the need that all children have to express themselves and build their self-esteem.

To meet this goal we provide students with a variety of art materials and lessons in basic art techniques.

Our program includes drawing, painting, printing and sculpture. Some of the concepts that will be taught are composition, value and understanding color.

We believe it is important to introduce young students to famous artists, past and present.

## Help your kids discover the fun of art and the artist within themselves!

## Great Masters Series

Creating a different piece of work each week inspired by the styles and techniques of great master Artists.
